Company

Who we are

The Blue Penguin Company was established in 2012 and specialises in providing English Language lessons to Business Professionals who already speak English very well, but who may wish to improve their proficiency, fluency and use of idiomatic English.

Whether you are attending meetings online or face to face, we understand that feeling confident when speaking English is a priority. Being able to accurately follow the dialogue as well as being able to confidently contribute towards the conversation are all key elements to your success.

Through our intensive Online English Courses we'll provide you with the tools you need to reach your English Language goals.

What we do

We help you to achieve your highest potential by providing you with intensive English Language lessons either online, or when travel allows, in person in the UK.

Our courses are tailored around your specific needs and wishes, ensuring that you are getting the maximum amount of benefit from your investment in us, at a time to suit your busy schedule.

“

I wanted to improve my English with native speakers and to focus on the Business situations I sometimes struggled with such as international meetings.

What convinced me was the possibility to have individual lessons with an English native speaker via zoom. It means I don't need to drive anywhere, the lesson is online. Optional homework is given at the end of each lesson to focus on key points.

I would recommend the Blue Penguin Company to any professional who is willing to practice with native speakers. I personally noticed that I quickly felt more comfortable with speaking in front of other people. My teacher at the Blue Penguin improves my pronunciation, which helps me a lot feeling more confident.
