

INTERFACE: Mission Zero and beyond

SUSTAINABLE MIND

9th June, 2021

Filippo Giovanni Saba – Country Manager Italy

COMPANY OVERVIEW

Who We Are

Established brand
with a history
of innovation and a
commitment to
sustainability

**Global
manufacturing
capabilities** with
focus on local market
needs

**Leading
global provider**
of commercial
flooring: Carpet Tile,
LVT, Rubber

**Dedicated to
performance** and
improving the build
environment, industry
and the world

**Engaged customer-
centric culture** with
deep design roots

1973 ÷ 1994: the beginning

1994

Smokestacks

Take Make Waste

COMMITMENT TO SUSTAINABILITY

1994: starting the journey

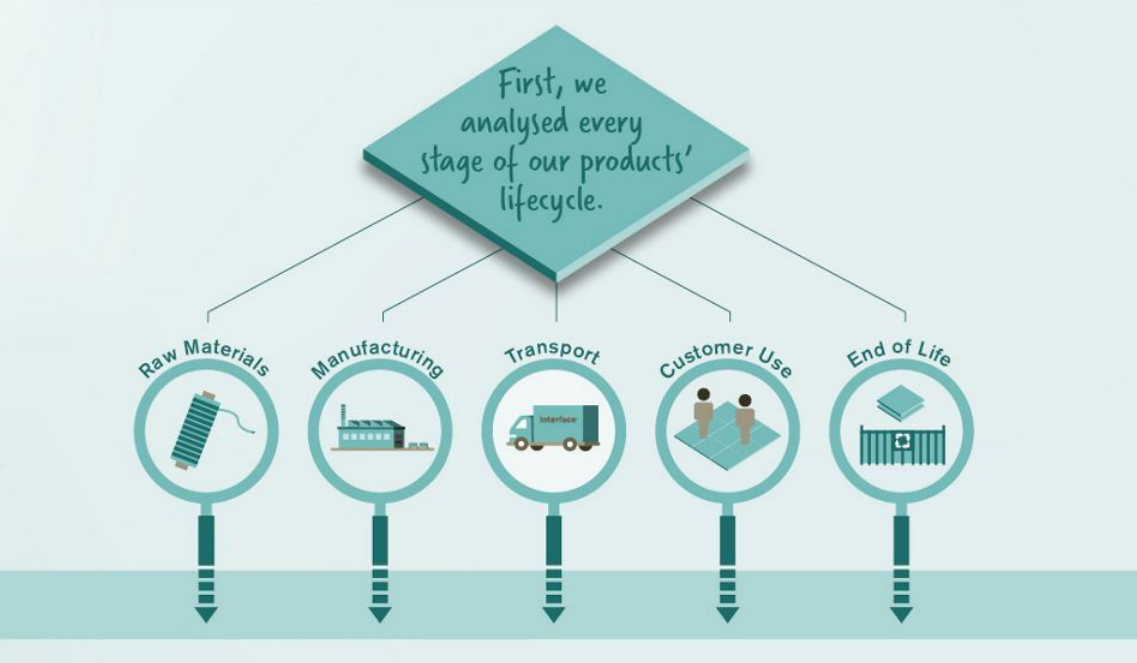

«When I think of what could be, I visualise an organisation of people committed to a purpose and the purpose is doing no harm. I see a company that has severed the umbilical cord to earth for its raw materials, taking raw materials that have been already extracted and using them over and over again, driving that process with renewable energy»

Ray Anderson (Founder of Interface)

In 1994 we set a mission to become restorative and eliminate any negative impact Interface may have on the environment by 2020. Mission Zero®.

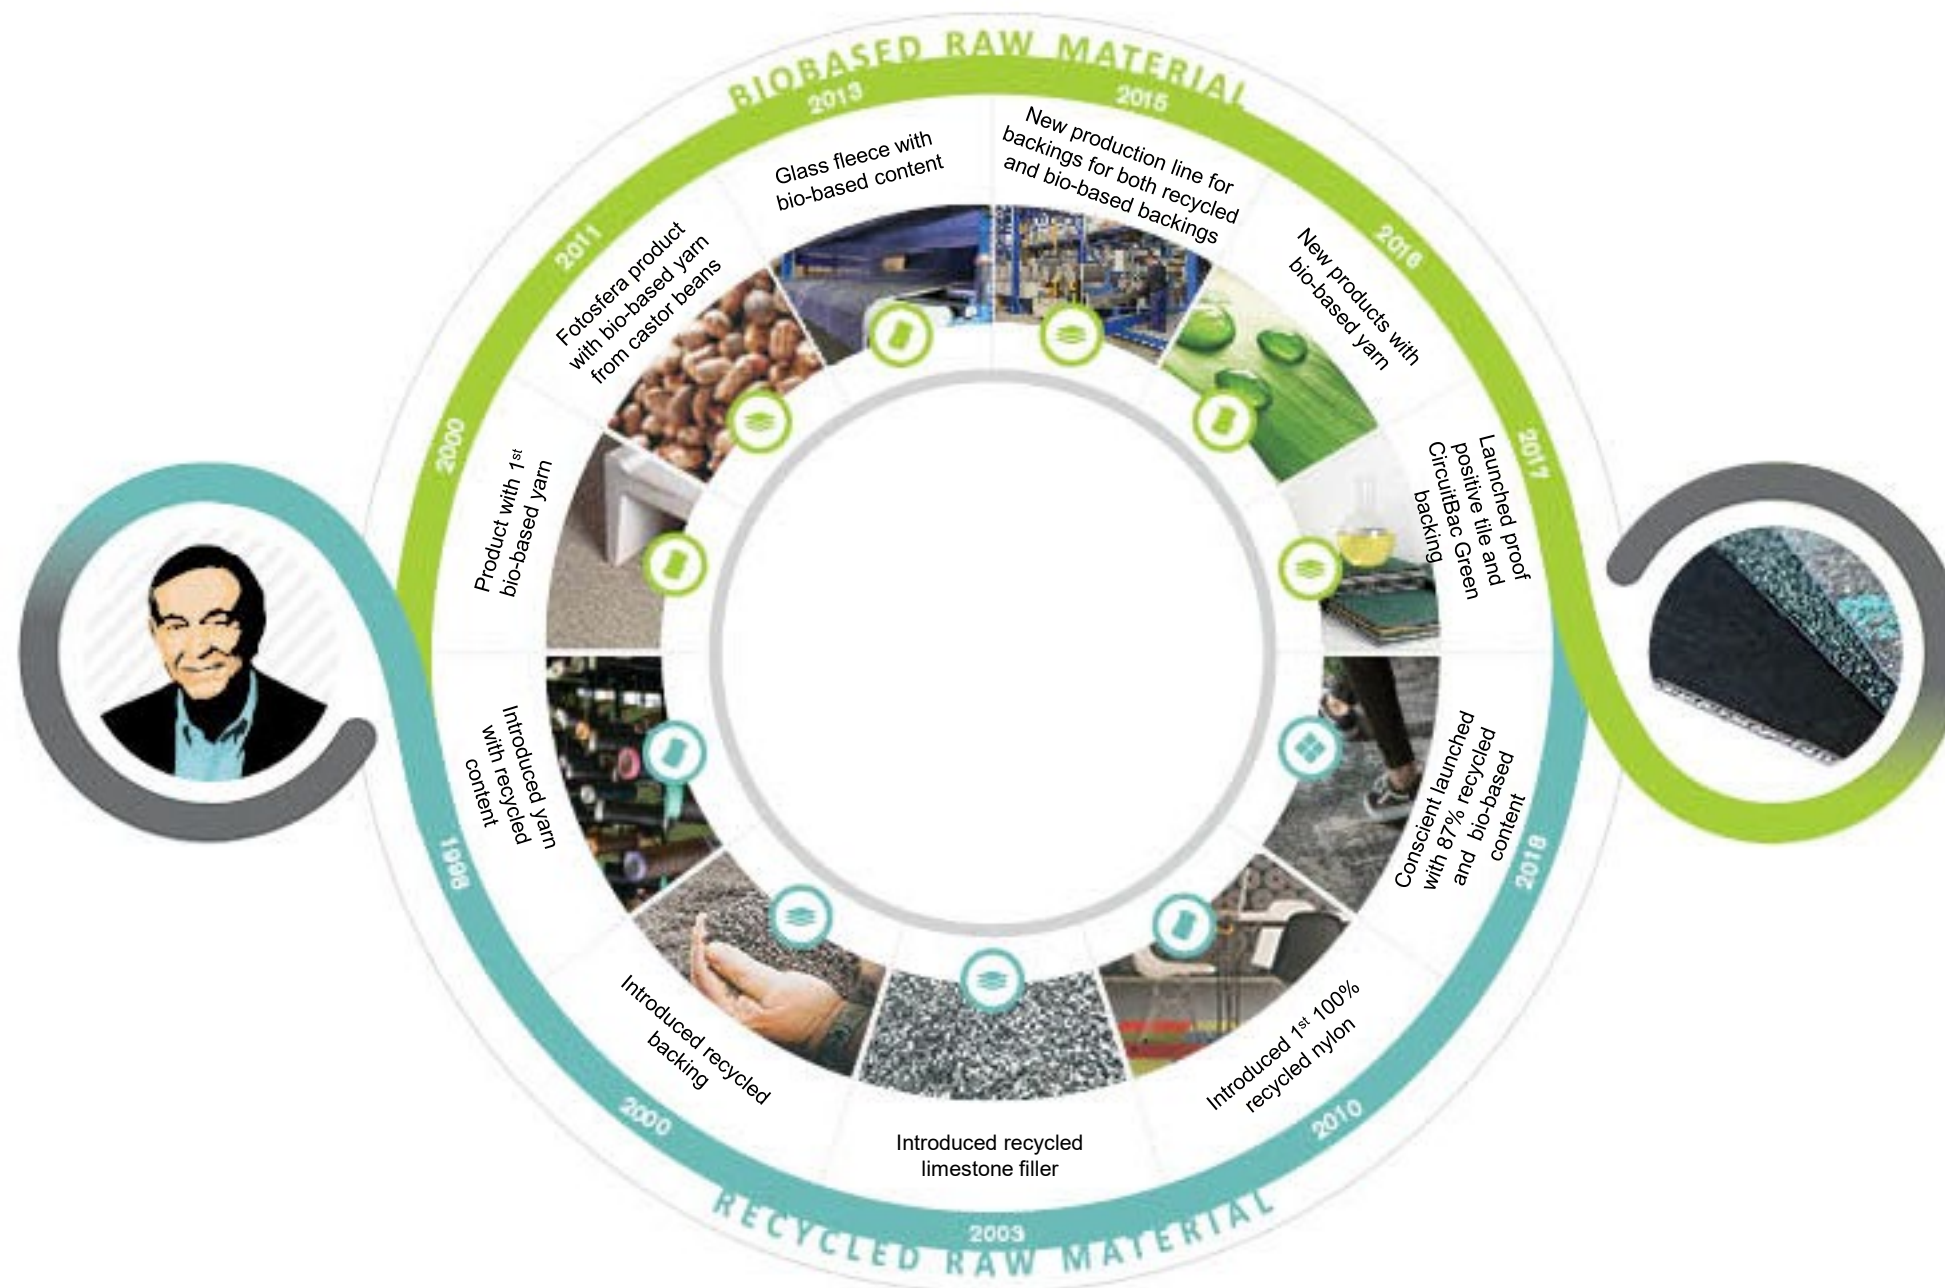

RECYCLED & BIO-BASED MATERIALS

Working toward turning off the tap to virgin oil

Since the beginning of our sustainability journey, 25 years ago, we have been working to end our dependency on virgin oil.

Through design, innovation, circular thinking and supply chain collaboration we are close to turning off the tap on fossil-fuel derived materials.

Reduction in carbon footprint
for carpet tile

100%

Waste-to-landfill
reduction

**Global carpet tile manufacturing sites per unit of output since 1996.*

2020-2040

THE CLIMATE TAKE BACK

LIVE ZERO

Aim for zero
negative impact on
the environment

LOVE CARBON

Stop seeing carbon as
the enemy, and start
using it as a resource

LEAD THE INDUSTRIAL RE-REVOLUTION

Transform industry
into a force for the
future we want

LET NATURE COOL

Support our
biosphere's ability to
regulate the climate

Our journey to carbon negative – our cradle to gate carbon footprint

CARBON FOOTPRINT

* AVERAGE BASED ON GLOBAL EPD

2020 – 2040: Goal year to become a carbon negative company

1994

Smokestacks

Take Make Waste

Petroleum Intensive Products

Disconnected Supply Chain

2020

Factories to Zero

Recycled closed loop materials

Low carbon products

Sustainable supply chain

Beyond 2020

Factories as Forests

Products from dispersed materials

Products that sequester carbon

Supply chain that benefits all life
