& Colt Technology Services

presents...

TECH TALK

‘TOWARDS A DATA-DRIVEN SOCIETY’

A CONVERSATION WITH

MIRKO VOLTOLINI

VP STRATEGY AND INNOVATION

COLT TECHNOLOGY SERVICES

March 14th

6:00 pm – 7:30 pm CET
RADIO ROOFTOP MILAN

colt

We live in a world where data has become the basis for the activity of most areas of economic and social life. In addition to human generated data, the broad dissemination of new digital technologies is driving exponential growth of machine generated data.

Making innovative uses of this data will provide enormous development opportunities in society and will become the main source of increased productivity in business.

This talk will take you through a journey, describing how data is driving the fascinating evolution of industry and finance towards a smart, decentralised approach and how digital twins and the metaverse will blur the line between real and virtual worlds in business and society.

Monday 14th March 2022

6.00 pm **Steven Sprague** - President @ The British Chamber of Commerce for Italy

Mirko Voltolini - Vice President, Strategy and Innovation @ Colt Technology Services

6.45 pm Q&A

7.00 pm Drinks and Networking

[Mirko Voltolini](#) is Vice President of Strategy & Innovation. In this role, Mirko is focusing on developing the long term strategy for Colt Technology Services. Working closely with the rest of the Strategy and Transformation team, he leads the identification of emerging technologies and innovation to drive long term product capabilities, performance and cost improvements to position Colt as an industry leader.

Over the last three years Mirko has led the Network On Demand area, driving the development and delivery of an online digital customer experience for the network services.

And as a member of the Board of Directors for MEF, he leads Colt contributions to the definition of telecom industry standards. He also brings a wealth of experience from various leadership roles, shaping the evolution of the Colt network and driving the adoption of new product and technologies. Mirko Voltolini has joined Colt in 2002. Prior to joining the company, he worked at GTS/Ebone, Italtel and ICT Consulting; an independent telecom consultancy company.

Mirko holds an MSc in Telecommunications Engineering from Politecnico of Milan.
