UK Government

In collaboration with:

14 JUNE 2022, 4 to 6 PM

GRAND HOTEL ET DE MILAN

Via Manzoni, 29 (Milan)

In association with:

HOW IS ESG SHAPING THE FINANCIAL SERVICES INDUSTRY?

Given the global challenges we are collectively facing as a result of climate change, it is important to understand the role that green finance can play to ensure we can sustainably transition to a net-zero economy by 2050 at the latest and limit global warming to 1.5C.

*Alongside multilateral work on carbon taxes and other measures, **financial institutions can play a key role** to help incentivize both their retail and corporate customers to make more environmentally sustainable choices, while offsetting the 'green premium' through the provision of more affordable capital provided by green finance. **Attend this exclusive event to discover how Italian banks can leverage the opportunity with green and sustainable finance to positively impact the environment and our society.***

PROGRAMME

The conference will be held in English.

- 3:40pm: **REGISTRATION**
- 4:00-4:10pm: **Steven Sprague** – President, The British Chamber of Commerce for Italy
