

Dear Friends,

a year that has witnessed Rise Against Hunger face unconceivable scenarios, from the persistence of the economic disaster in Italy to the conflict in Ukraine, without ever losing sight of the thousands of children who every day see denied the most basic of rights such as access to food and education, is now coming to an end.

We have been able to count on the help of many, including Yours, and together we have made a difference in the lives of myriads of people both in Italy and in the rest of the world.

Now it is time to celebrate!

At our side there are extraordinary people, such as **Chef Cristina Bowerman** whom, this year, chose to share her commitment to create a unique recipe, her precious gift to allow for a collective dream to come true: to wish the world a future... possibly a rosier one!

An exclusive gift for your friends, the hope of a decent life for thousands of people.

Support and Join the Rise Against Hunger campaign, it all starts with a meal!
